## **FIRST YEAR ENGG. BATCHES @ 'KC' (2023-24)**

Dear Students & Parents,

We are happy to share with you that our Classes have successfully completed 30 Glorious years of Teaching. The Tradition of Excellence Continues forever...

### **Q.1 : What are the types of Batches Available with KC?**

Ans: We will have following batches for First year Engg (FE) for Academic year 2023-24:

1. Pure Vacation Batch : 19/06/23 to 31/07/23 (Colleges are likely to start in 1<sup>st</sup> week of August)
2. Vacation cum Regular (VCR) Batch : 01/07/23 to 30/09/23 (50% syllabus will be covered in Vacation & Remaining in Regular sessions (Timings will be suitably arranged as per college schedules)
3. Regular Batch 1 : 01/08/23 to 30/11/23 (Timings will be suitably arranged as per college schedules)
4. Regular Batch 2 : 15/08/23 to 30/11/23 (Timings will be suitably arranged as per college schedules)

Apart from this, further Batches will be announced as per the demand from Students & Parents.

### **Q.2 : What Students will receive from KC?**

Ans: All students will receive the following :

- i) Detailed Coaching in All Subjects
- ii) Ample Practice of Numerical Examples in Maths, BEE & Mechanics
- iii) Exclusive Notes in All Subjects (Printed Material)
- iv) Doubt Clearing anytime during the semester
- v) Revision Lectures (Also Re-attending of missed lectures in other batches\*)
- vi) Module-wise Unit Tests during the Semester
- vii) Prelims at the end of semester

### **Q.3 : Who are the Faculty Memembers of KC?**

**KC has a tradition of Best Quality of Coaching since 30 years. The details about our Experienced Teaching Faculty Members is as follows:**

**1. Prof. Shailesh Kulkarni :** He is the Founder & Director of 'KULKARNI'S CLASSES'. He has a teaching Experience of 32 years (Since 1991 he is in teaching field). He Completed B.E. in Electronics Engg. in 1990, from K.J. Somaiya College of Engg, Vidyavihar. After working in teaching field for 3 years, he started his own Coaching Classes in 1993 in Dombivli. Since 1993, he has handled uncountable no. batches of Mathematics. He has taught for Degree Mathematics I, II, III, IV & V. Most Effective manner of teaching, Dedicated & Full-fledged Coaching and Coverage of Maximum no. of Examples in the Classroom itself are the main features of his Coaching.

**2. Mrs. Minal Kirtikar :** She completed B.E. in Electronics Engg. in 1995. Since 1996, she is working with KC. She handles various subjects like Basic Electrical Engg (BEE), Electrical Circuits & Networks, Industrial Electronics etc. She has handled various batches of BEE & She is a Famous name for this subject. Her Detailed Coaching in the subjects like BEE, ECN has benefited the students community.

**3. Prof. Hemant Bhalla :** He completed M.E. in Computer Engg. in 2018. Since 2001, he is working with KC. He handles various Programming subjects, like C-Programming Data Structures, Object oriented Programming & so on. He Covers Maximum no. of Computer Programs in the Classroom. He handles subjects like Analysis of Algorithms, Operating Systems, Computer Graphics etc. for higher semesters.

**4. Prof. Deepak Kulkarni :** He completed M.E. in Electronics & Telecommunication Engg. in 2006. Since 2002, he is working with KC. In FE, he covers the subjects Physics & Chemistry. The difficulty level of these subjects is quite high in the University Exams. His simplified but very effective coaching make the subjects really interesting & scoring for the students. He also handles various subjects like Digital Logic Design, Microprocessors, Embedded Systems, VLSI etc.

**5. Prof. Karthik S. :** He completed M.E. in Mechanical Engg in 2017. Since then, he is working with KC. In FE, he covers two very important subjects, Engg. Mechanics & Engg. Drawing. He is well known for his excellent teaching, energetic & dynamic nature and for helping the students in solving all kinds of doubts in these subjects.

Apart from this, there are Many More Professors who conduct coaching for various subjects of different Branches of Engg.

#### **Q.4 Why 'KC' Only ?....**

- 5. Exclusive & Exhaustive Printed Notes provided in Every Subject.**
- 6. Regular Tests (Including Prelims at the end of the semester based on University pattern) & Quick Assessment of Papers.**
- 7. Availability of Professors for Doubt Clearing till the last moment of Exam.**
- 8. KC is the only Classes which provide detailed coaching for ALL subjects of Engg.**

#### **Q.5 What Ex-Students say About 'KC'?**

**Anuja Vaidya Says :** *In Semester-I, I could achieve overall 9.85 pointer & 10 on 10 pointers in all the Main subjects. This is due to the **Extreme Efforts** taken by all the **Excellent Teaching Staff** of KC and **Proper & Regular Guidance** of **Shailesh Kulkarni Sir**. KC not only ensures freedom for Clarifying doubts & difficulties, but also provides a **Friendly Bonding** between the Teachers & Students. Regular Tests, Feedbacks & revisions help us to be thorough in every subject. Our Shailesh Kulkarni Sir, not only provides Excellent coaching in Mathematics, but also Guides us Regularly either individually or in Seminars. It is my humble pleasure to be a part of KC. Friends, **you too join** with this Classes & **Discover the key of success** in Engg.*

**Ashlesha Jagtap Says :** *In Semester-I, I have secured overall 9.70 pointer & 10 on 10 pointers in all the Main subjects. The Credit of my Success goes to Kulkarni's Classes. Ever since I joined with KC, I Enjoyed Every day of Learning. Especially Maths Coaching by **Shailesh Kulkarni Sir** is Outstanding. The team of Professors in KC have taken a **lot of efforts** for us. Even though College doesn't provide adequate coaching, our Entire Studies are get done in KC itself. Also, I am travelling from Dombivli to Nerul for College & I don't get much time for own studies. But, due to KC, my major part of the studies is get done here itself. The Teaching Quality here is **Awesome**. I am very much proud of KC. I am thankful to Prof. Shailesh Kulkarni, who always **takes care** of our suggestions and Clears our doubts & difficulties from time to time. Friends, I strongly recommend you to join KC to be successful in Engg. Studies.*

**Nikhil Bagul Says :** *I really appreciate the efforts taken by All Professors for us. Even though College doesn't provide adequate coaching, our Entire Studies are get done in KC itself. I just don't have enough words to express myself. I feel proud to say that I'm a part of Kulkarni's Classes. I could achieve overall 9.44 pointer & 10 pointers in all the Main subjects due to **Extreme Efforts** taken by all the **Excellent Teaching Staff** of KC and **Proper & Regular Guidance** of **Shailesh Kulkarni Sir**.*

**Simran Mayekar Says :** *I am travelling from Dombivli to Chembur for College & I don't get much time for own studies. But, due to KC, my major part of the studies is get done here itself. The Teaching Quality here is Awesome. I am very much proud of KC & credit of my success entirely goes to KC.*

**Vinay Naikodi Says :** *Ever since I joined with KC, I Enjoyed Every day of Learning . Especially Maths Coaching by **Shailesh Kulkarni Sir** is Outstanding. The team of Professors in KC have taken a lot of efforts for us. I am thankful to KC.*

## **Frequently Asked Questions (FAQ's) by F.E. Students/Parents**

### ***Q. 1 : Is Engg. Syllabus difficult as compared to Std. XII?***

☞ : Many Students (even scholars) find Engg. syllabus difficult as compared to Std. XII due to following reasons :

- The syllabus in Std. XII is theoretical & in Engg. It is generally application oriented. Hence students need to study the concepts in detail.
- Exam pattern of Mumbai University is not straight -forward like Std. XII.
- There are No Standard Text Books prescribed by the University. The students are suggested to refer to various Reference Books, which is difficult for the them within a short duration of the semester.
- Many students think that they can manage Engg. Studies of their own very easily, once they get an admission in Engg. However, mostly they are unable to do so, which they realize only after Exams.
- Many new subjects like Engg. Mechanics, BEE, Engg. Graphics, C-Programming are introduced. Subjects like Engg Maths have Chapters of higher studies, which are not introduced in Std. XII or JEE.

Due to these reasons, many Students face ATKTs in Sem I, due to which study of Sem II is also affected. Average result in FE Sem I is about 35-40% or sometimes, even less.

### ***Q. 2 : How Kulkarni's Classes can help us ?***

- ☞: We impart -
- Extensive coaching in all subjects
  - Total insight into subjects, giving in-depth knowledge
  - Not only Conceptual, but also Exam-oriented Coaching.
  - Full-fledged printed notes with ample practice of Numerical Examples, Computer Programs, Engg. Drawing Examples etc.
  - Regular Tests including Prelims before concluding Semester.

### ***Q. 3 : How many subjects are required to join in Coaching Classes ?***

☞ : Normally for scholars & above average students, 6 important subjects will be enough to join. But for average students, it is better to join for all subjects of Sem I & II.

**Generally, those who join for all the subjects with us are always benefited academically.**

### ***Q. 4 : To get the sufficient time for self study, is it advisable to join for only 1 or 2 subjects in Classes ?***

☞ : In fact, self study needs more time for entire preparation of subject. It involves complete understanding, notes preparation, practice of examples etc. which are to be handled entirely by the student. By joining classes, you get a concentrated & focused training; where, actually, you save the time. Ideally, joining Classes & revising the study at home will be the right combination.

### ***Q. 5 : Is it better to join for different subjects at various places?***

☞ : **You can get the Best Quality coaching to ALL the subjects at Kulkarni's Classes itself.** Since 1993, we are providing it to all branches of Engg. with topmost standards. Due to our unique Student-oriented approach, we constantly maintain & upgrade our Quality. Joining at one place has the biggest advantage of NO time-clashing, thus enabling you most effective time management. (Shortage of Time is a major issue for FE students). You can allot maximum time for the self preparation. Last, but not the least, you can take advantage of our special Concession offers & save a huge amount of money.

### ***Q. 6 : How is the result of Kulkarni's Classes ?***

☞ : Many students (even scholars of 12<sup>th</sup> std.) may fail in some papers in FE Exams due to various reasons given above. It will be worth to note that there is a significant percentage of students getting year drops in FE. Average result in FE Sem I is about 35-40% or even less. However, We are happy to share that

**We have maintained our result more then 90% in every year.**

### ***Q. 7 : Is it sufficient to attend the Crash Courses for some subjects?***

☞ : FE students need basic understanding of core subjects like Maths, Mechanics, BEE, Engg. Drawing etc. Crash Courses are exam oriented & they can't provide complete knowledge of the subject. If the paper pattern or type of questions in Exam change (as seen in Mumbai University papers), then Crash Courses will not help much.

### ***Q. 8 : Is it enough to buy the Readymade/Online question paper solutions for passing?***

☞ : These solutions are like fast foods. They can just meet your temporary needs, but can't replace the conceptual understanding process. They may help to some extent, as a last moment material. For getting good results, it is advisable to understand the subject thoroughly by the Classroom learning process. The readymade solutions may provide only short-term gain; but your long term solutions will never be achieved. (However Recommended Reference books can be used.)
